Power 160 kW  Total connected load 210 kW  Motor start Via soft start  Optional cable reel Up to 50 metres (other lengths on request)  Electrical system  Alternator 28 V / 100 A  Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	DEF / Urea tank	50 I Ad Blue	_				
Total connected load 210 kW  Motor start Via soft start  Optional cable reel Up to 50 metres (other lengths on request)  Electrical system  Alternator 28 V / 100 A  Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Electric motor						
Motor start  Optional cable reel  Up to 50 metres (other lengths on request)  Electrical system  Alternator  28 V / 100 A  Operating voltage  24 V  Battery  2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System  2x LED floodlights at the front of the machine, rear lights and indicator lights  Optional  20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear  max. 5 km/h  Travel speed 2nd Gear  max. 30 %  Turning radius  9.5 m  Slewing drive  Slewing ring  Double slewing ring with inner teeth  Drive  2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed  0-6 rpm infinitely variable	Power	160 kW					
Optional cable reel Up to 50 metres (other lengths on request)  Electrical system  Alternator 28 V / 100 A  Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Total connected load	210 kW					
Electrical system  Alternator 28 V / 100 A  Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Motor start	Via soft start					
Alternator 28 V / 100 A  Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Optional cable reel	Up to 50 metres (other length	s on request)				
Operating voltage 24 V  Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Electrical system						
Battery 2 × 12 V / 110 Ah / 750 A (as per EN)  Lighting System 2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Alternator	28 V / 100 A					
Lighting System  2 x LED floodlights at the front of the machine, rear lights and indicator lights  Optional  20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear  max. 5 km/h  Travel speed 2nd Gear  max. 15 km/h  Gradeability  max. 30 %  Turning radius  9.5 m  Slewing drive  Slewing drive  Uppercarriage swing speed  0-6 rpm infinitely variable	Operating voltage	24 V					
rear lights and indicator lights  Optional 20 kW or 30 kW DC generator with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Battery	2 × 12 V / 110 Ah / 750 A (as pe	er EN)				
with control and insulation monitoring  Travel drive  Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Lighting System						
Hydrostatic drive through infinitely variable axial piston motor with directly mounted travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Optional						
travel brake valves, 2-gear transmission, all-wheel drive  Travel speed 1st Gear max. 5 km/h  Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Travel drive						
Travel speed 2nd Gear max. 15 km/h  Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable			or with directly mounted				
Gradeability max. 30 %  Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Travel speed 1st Gear	max. 5 km/h					
Turning radius 9.5 m  Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Travel speed 2nd Gear	max. 15 km/h					
Slewing drive  Slewing ring Double slewing ring with inner teeth  Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Gradeability	max. 30 %					
Slewing ring  Double slewing ring with inner teeth  Drive  2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed  0-6 rpm infinitely variable	Turning radius	9.5 m					
Drive 2-stage planetary gear with integrated multi-disk brake  Uppercarriage swing speed 0-6 rpm infinitely variable	Slewing drive						
Uppercarriage swing speed 0-6 rpm infinitely variable	Slewing ring	Double slewing ring with inne	er teeth				
infinitely variable	Drive	Drive 2-stage planetary gear with integrated multi-disk bra					
Slewing lock Electronically activated	Uppercarriage swing speed	•					
	Slewing lock	Electronically activated					

Front axle	Planetary drive axle with integ					
Rear axle	Planetary drive axles with inte with self aligning bearing and	grated drum brake,				
Outrigger	4-point outrigger					
Tyres	Solid rubber elastic 8 × 12.00-	24				
Brakes						
Service brake	A hydraulically activated single that works on all four pairs of the street of the str					
Parking brake	An electronically activated disc brake on the drive transmission that works on both axles					
Hydraulic system						
Max. flow rate	2 × 280 l/min & 1 × 140 l/min (f	for slewing)				
Max. operating pressure	320 / 360 bar					
Hydraulic oil tank	520 l					
Operator's Cab						
Cab	Vertically adjustable through infinitely variable hydraulic control up to a viewing height of 5.8 m (option: vertically and horizontally adjustable to a max. viewing height of 6.1 m) Soundproof, insulating panoramic windows enabling all-round visibility, windscreen with pull-down sunblind, roof skylight, cab door sliding window, sliding door					
Air conditioning	Automatic climate control. Infinitely variable water heating with 8-speed fans, 10 adjustable nozzles, 4 set into the roof lining and 3 defrosting nozzles					
Operator's seat	Air-sprung comfort seat with integrated headrest, safety belt and lumbar support, optional seat heating. It allows for comfortable working by offering universal adjustment possibilities of the seat position, the seat incline, and the position of the seat cushion in relation to the armrests and pilot controls					
Monitoring	Ergonomically-arranged, anti- display, automatic monitoring operating conditions, (e.g. all I draulic oil temperature, coolar temperature, diesel particle fil warning up to the point of shu reducing engine output. Indivi the multi-functional display, re	and storage of deviating hydraulic oil filters, hot/cold hy ht temperature and charge air ter load), visual and acoustic tting feed forward control or dual sensor diagnosis using				
Noise level	EU-Stage V	EPA Tier III

Intercooler and coolant radiator	•	
Direct electronic fuel injection / common rail	•	
Advanced automatic idle incl. engine shut-off function	•	
Engine preheating		
Engine diagnostics interface	•	
Temperature-dependent fan drive	•	
Undercarriage		
All-wheel drive with differential	•	
Drum brakes	•	
Rear axle oscillating lock	•	
2-speed powershift transmission		
4-point stabilisers	•	
Dozer blade in addition to 4-point stabilisers		
Stabiliser cylinders with integrated two-way check valves	•	
Piston rod protection on stabiliser cylinders	•	
Tool box	•	
Special paint (customer paint work)		
Solid rubber tyres 12.00-24 with intermediate rings	•	
Uppercarriage		
Separate cooling system for engine and hydraulic oil cooler	•	
Cooling system with temperature-dependent fan drive	•	
Fan drive reversing function		
Automatic central lubrication system	•	
Rear view camera	•	
Side view camera	•	
Driving warning device		
Electric refuelling pump		
Lighting protection		
Special paint (customer paint work)		

Standard Option

Cab	Standard	0ption
Hydraulically adjustable cab	•	
Cab system which can be elevated and moved forward		•
Safety glass	•	
Sliding window in cab door	•	
Reinforced glass P5A (windscreen and roof panel)		•
Reinforced glass P5A (windscreen and roof panel) (FQC)	•	
Windshield washer system	•	
Roof washer system		•
Air-cushioned operator seat with headrest, seatbelt, and lumbar support	•	
Seat heating		•
Joystick steering	•	
Steering column, height and tilt adjustable		•
Automatic air conditioning system	•	
Independent heating system		•
Multi-function display	•	
Document net	•	
FOPS Guard		•
Front and FOPS Guard		•
12 V transformer		•
Digital Radio (DAB+, USB, Bluetooth & hands-free system)	•	
12 V socket		•
Fire extinguisher, dry powder		•
Travel alarm w/ rotating beacon		•
Other Equipment		
20 kW DC generator with controls		•
30 kW DC generator with controls		•
Close proximity range limiter for dipper stick	•	
Coolant and hydraulic oil level monitoring system	•	
Filter system for attachments		•
Filter system for attachments (FQC)	•	
Hose rupture valve for boom cylinder	•	
Hose rupture valve for stick cylinder	•	
Overload warning device		•
Quick coupling on dipper stick	•	
Dipper stick impact protection		•
Active cyclone prefilter (TOP AIR)		•
Hydraulic oil preheating		•
Lubrication of the grab suspension by central lubrication system	•	
Light packages LED		•
LED front headlights	•

Key Undercarriage stabilisation To Not supported 4-point supported

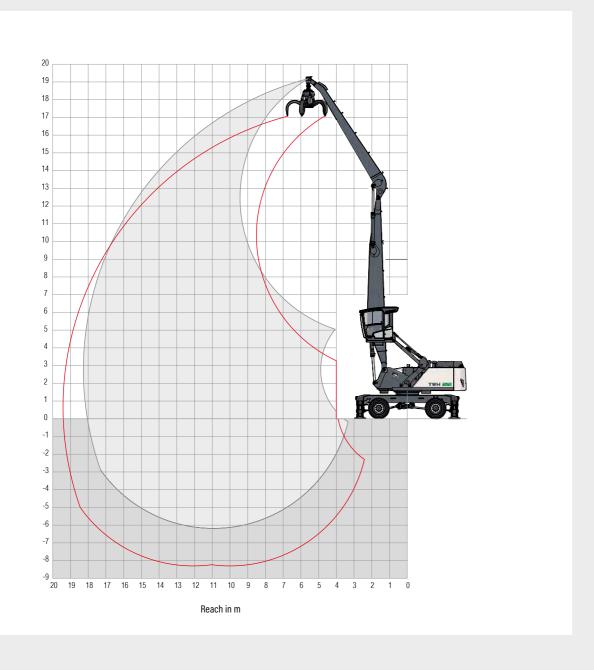

The lift capacity values are stated in metric tons (t). The pump pressure is 350 bar. In accordance with ISO 10567 the lift capacity values represents 75% of the static tipping loads or 87% of the hydraulic lifting force (marked °). On solid and level ground the values apply to a swing range of 360°. The (...) values apply in the longitudinal direction of the undercarriage. The values for 'not supported' only apply via the steering axle or the locked oscillating axle. The weights of the attached load hoisting equipment (grab. load hook. etc.) must be deducted from the lift capacity values. The working load of the lifting device must be observed. In accordance with the EN 474-5 for object handling application hose rupture valves on the boom and stick cylinders, an overload warning device and the lift capacity table in the cab are required. For object handling application the machine has to be supported on a level ground.
